

TWO SLAYERS PAY DEATH PENALTY

One of the Victims Smiles and Says "Hello" To the Other Victim.

San Francisco, Cal., Nov. 5.—Louis Bundy, who murdered and robbed a messenger boy in Los Angeles to get money for a present for a girl, and Earl Loomis, who murdered a Sacramento woman who resisted his attempt to rob her candy shop, were hanged simultaneously today, one at San Quentin and the other at Folsom penitentiary.

"Hello, boys," said Loomis, as he mounted the scaffold, and smiled broadly. He declined religious consolation.

Bundy made a speech.

"I have done a great wrong and I am sorry," he said. "I had hoped the law would see a way to let me have a chance, because I would like to have seen the world what I could do."

J. W. JARNIGAN, EDITOR OF FARM PAPER, HERE

J. W. Jarnigan, editor of the Iowa Farmer, of Des Moines, Iowa, arrived in El Paso Friday morning and spent the day in the city as the guest of the chamber of commerce.

He was taken on a trip through the lower valley by A. G. Graham, county farm demonstrator. Mr. Jarnigan's paper is one of the most influential farm journals published in the United States.

PRESIDENT AND FIANCE ENTERTAINED BY MR. DODGE

New York, Nov. 5.—President Wilson spent more of today with Mrs. Norman Galt, his fiancée, and relatives, who are in New York. They attended a luncheon given in their honor by Cleveland H. Dodge.

The president has taken advantage of his visit to talk informally with various Democratic leaders.

GET IT FIRST—NOT LAST

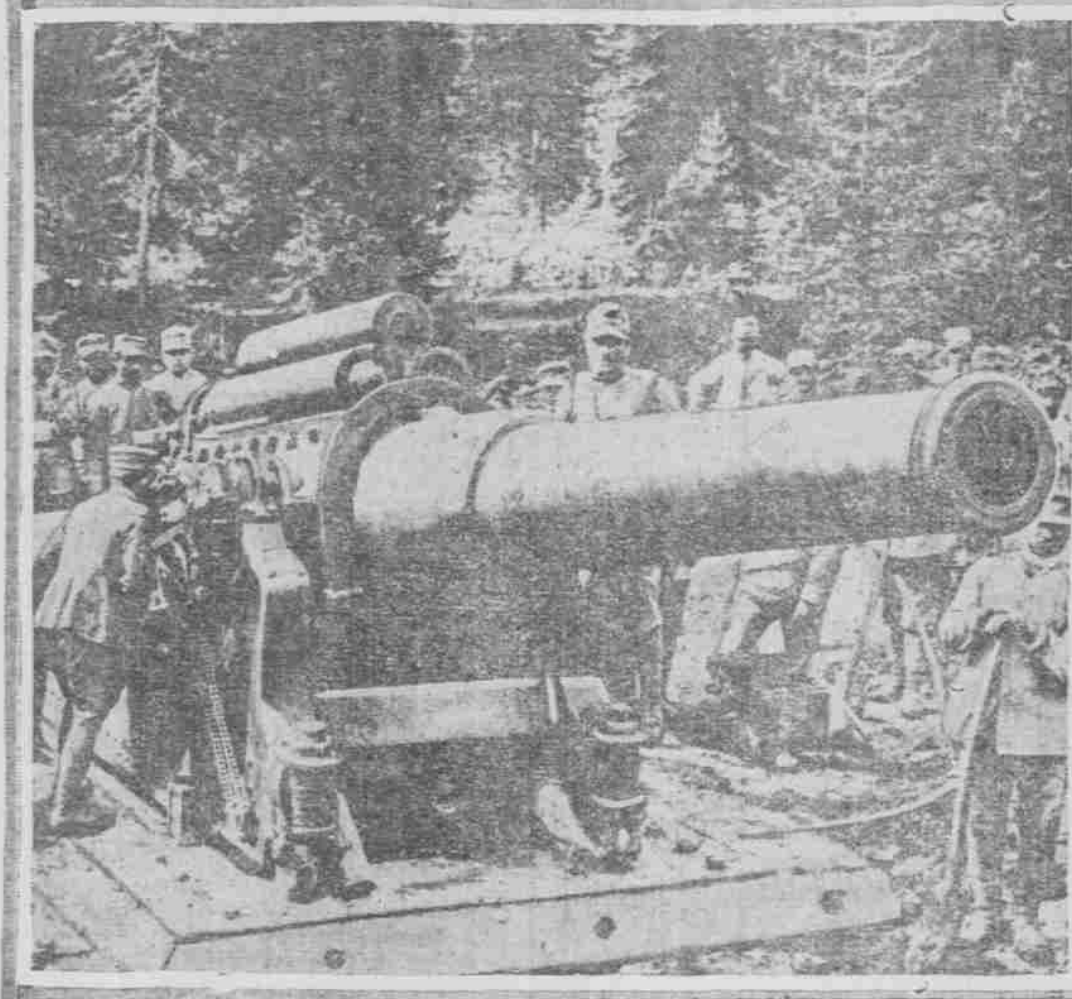

When a cold grips your system it is convincing proof that your condition is weakened—remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold—the one so often relied on when others fail, is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate strength to thwart further sickness.

Get Scott's first, not last—and insist on the genuine—always free from alcohol and injurious drugs.

ITALIAN GUN MOUNTED IN FOREST

ONE of the huge Italian guns used against the Austrian mountain positions is shown in the photograph mounted on its heavy concrete base. By looking closely at the base of the carriage it can be seen that the weight of the massive machine rests on immense coil springs, each as big as a man's thigh. The two cylinders along the top of the gun's barrel are devices to absorb the recoil and prevent the gun from leaping from its bed.

PLUMBER KILLS 3, WOUNDS TWO

Seattle, Wash., Nov. 5.—George S. Roberts, a plumber, killed his wife and blind daughter with an ax, probably fatally wounded two children and then shot himself dead here today. He is believed to have gone insane as the result of a recent injury.

The dead: Mrs. Ella Roberts, head crushed with ax. Miss Ella Roberts, 22 years old, slashed with ax. George S. Roberts, 45, shot through heart.

The injured: George S. Roberts, Jr., 15, head crushed, face cut. Villa Roberts, 17, shot through head. Mrs. Roberts said the boy was asleep when attacked. Indications were that the boy awoke and fought with his father.

GERMANS AND BULGARIANS EXPECTED TO REACH NISH BEFORE NOVEMBER 15

Black areas show parts of Serbia occupied by Germans and Bulgarians. In the circle at the north a road has been hacked through from Hungary to Bulgaria. Arrows near Prizrend indicate where Albanians threaten Serbia on the west. Serbia's enemies are now bending every effort to gain control of the Vienna-Constantinople railroad. In the south arrows show where the allied expedition is trying to clear the Salonica-Nish railway and come to the rescue.

EDISON Diamond Amberola

Thomas A. Edison is the inventor of the Phonograph. With his wonderful diamond reproducer, he has made it possible to reproduce the artist's voice or solo with astonishing fidelity. Music lovers say that the Amberola is not a "talking machine" but a real musical instrument.

No Needles to Change

With his diamond stylus, Mr. Edison has done away with the bother of changing needles. The library of Amberola Records embraces the very best in the world of music. The great artists, the latest popular melodies and dance music.

We will be glad to play any records you select for you without obligation. Come in today.

BITULITHIC

GENERAL PUBLIC

WHAT is said to be the largest country road contract ever let in America was made by the commissioners of Multnomah County, Oregon, which includes and surrounds the city of Portland.

Out of a total of 88 miles 74 were for Warrenite (Bitulithic), scattering contracts for concrete 15 and brick 1. The contracts aggregate \$1,250,000, and are for 16 foot roadway.

The project for improvement on a large scale began nearly two years ago when at a conference meeting of the taxpayers of the city of Portland and Multnomah county John B. Yeon and S. Benton were urged to accept the position of Roadmaster and Deputy Roadmaster respectively. They have since devoted nearly their entire time to investigation of the road problem, including roads of all types throughout the U. S. and Canada.

A report of the Portland Chamber of Commerce special paving committee concludes:

"We are certain that everybody concerned in this paving problem who is entirely disinterested, has been, and is now, seeking to get the VERY BEST available pavement for the county."

Yuma County, on the 29th of October awarded a contract for 17 miles of 15 foot county roads for WARRENITE (Bitulithic). These states border on California. There is a reason.

And You Wake Up With Beautifully Curly Hair!

(Tom's Tattler)
This is a secret that will, I know, be appreciated by my lady who dislikes the tedious and "nerveous" task of twisting her locks around a heated iron, perhaps smearing blistering fingers or scalp in the operation. From any drugged product a few ounces of pure liquid stimulate and at slight pour a little onto a clean tooth brush and draw this down the full length of the hair. A simple thing to do, but remarkably effective, as will be apparent in the morning. The hair will have a wonderfully soft, fluffy curling, much more natural looking, kinder and kinder in appearance than when a waving iron has been used. Silmerine doesn't make the hair sticky or greasy, and this will be no trouble doing it up in any of a desired—O.K. Ormaben—Advertisement.
